

QUESTIONS *and* ANSWERS

Why are you applying for the Managing Editor - Manga position?

What project management experience do you have?

What can you contribute most to this role?

Two contributions I can definitely make are clear communications and smooth workflows.

In person, on the phone, by email or on project boards, I balance clear directions with strong support.

Paying attention is key to my smooth workflows. I maintain quality and customer service as my direction; work steadily to gather all needed pieces, respond promptly to concerns, adjust dynamically to the unexpected and efficiently clear any problems.
