

# QUESTIONS *and* ANSWERS

## What do you like about Sonata Learning?

Why are you interested in working at Sonata Learning?

How did you make this presentation?

I like the clean design of the website and the clear, concise description of Sonata Learning's e-Learning Methodology.

Also, I love the variety of the courses and videos I looked through.

Finally, I am impressed with how well Sonata Learning made almost every course and video I looked at engaging and effective.

Sonata Learning makes information engaging, which translates into accessible.

I like helping people and I want to be part of the Sonata Learning team to create courses and videos that make information globally accessible.

If I am unsuccessful this round, I will keep applying to Sonata Learning as many times as it takes.
